

## ***Tengwar Elfica* version 1.2**

The style of this Tengwar True Type Font is inspired in the Tengwar writings of JRR Tolkien, mainly in Appendix E of The Lord of the Rings. The keyboard layout of the font follows the one created by Daniel S. Smith for his Tengwar fonts. Many thanks to the Tengwar Fontmaker pioneer Daniel Smith for his invaluable suggestions and support.

### **Copyright and distribution information**

*Tengwar Elfica* and *Tengwar Elfica-A* have been created by Enrique Mombello © 2003.

These fonts may be used in any personal, private or non-commercial publication. Please contact me if these fonts do appear in a publication. I'd like to receive a copy of it. CD-ROM and Shareware distributors are requested to notify me before distributing these fonts. The accompanying files, including this documentation, should always be distributed together with the font.

### **Release 1.2 Notes**

Almost all characters were retouched. All known problems fixed.

### **Distribution contents**

- **ElficaInfo&KeyMap.pdf** – documentation in Adobe Acrobat format (includes Elfica-A information).
- **Elfica.ttf** – TrueType Font *Tengwar Elfica*.

## ***Tengwar Elfica-A version 1.0***

Tengwar Elfica-A was mainly created to solve some problems arisen using Tengwar Elfica, since there are too many Tengwa-Tehta (including s-curly) that must fit together as smooth as possible. This is sometimes incompatible with some forms of the Tengwar themselves and I shall never renounce to give the Tengwar the most beautiful forms because some Tehta fittings do not look smooth enough.

### **Fixing Problems:**

1. In placing a s-curl after a series II Tengwa in Elfica the decorative tail of the Tengwa is a problem because avoids a smooth fit. Since the problem here are the tails of these Tengwar, a new set of series II Tengwar (with small and flat tails) has been created in Elfica-A in order the joint to be smoother.  
Usage: Use series II Tengwar in Tengwar Elfica-A (p p̄ b b̄ m m̄ r̄ r̄) with one of the alternative s-curly in Tengwar Elfica (+ or alt/0163) or in Tengwar Elfica-A (downward variants: + or alt/0163). Vowel Tehtar of Elfica also compatible with these characters.
2. Raised curl with smooth fitting for series III Tengwar (for example: a and alt/0162 that look like this )

### **Giving more alternatives:**

3. Romen/s-curl as in many JRR Tolkien writings (j and \_, that look like this )
4. Hyarmen/s-curl (9 and 0, that look like this )
5. Alternate downward s-curly (+ alt/0163 alt/0165 alt/0198 as in Elfica)
6. Alternate triple over-dots (# E D C as in Elfica)
7. Alternate reverse triple over-dots (alt/0170 alt/0173 alt/0175 alt/0181 as in Elfica)
8. Alternate reverse triple under-dots (alt/0208 alt/0209 alt/0210 alt/0211 as in Elfica)
9. Alternate single and double vowel 'o' over-curly for several characters as in the ring inscription
